

# INNOVATIONS 2025

# Serving the End making industry since 1992

Develops, produces and markets material handling automation solutions for the metal packaging industry.

Full turnkey solutions

Protecting your brand

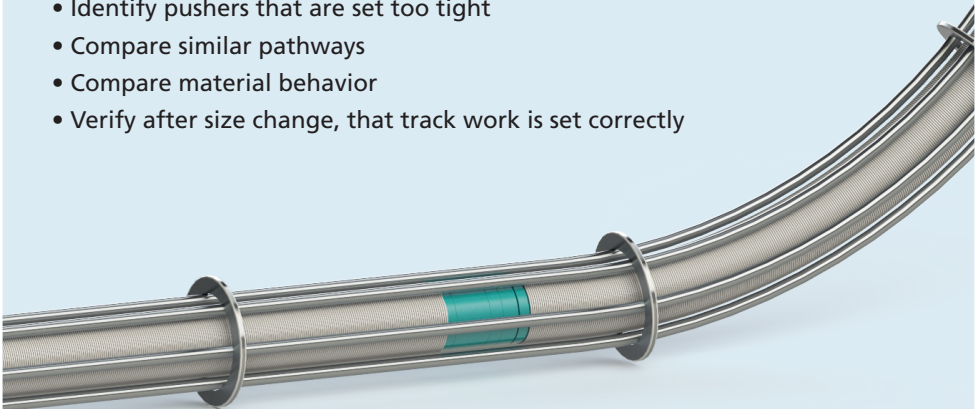

Automation expertise

Boosting your productivity

## Smart-End – Intelligent Load Measuring

- Identify high load areas in track systems
- Identify pushers that are set too tight
- Compare similar pathways
- Compare material behavior
- Verify after size change, that track work is set correctly

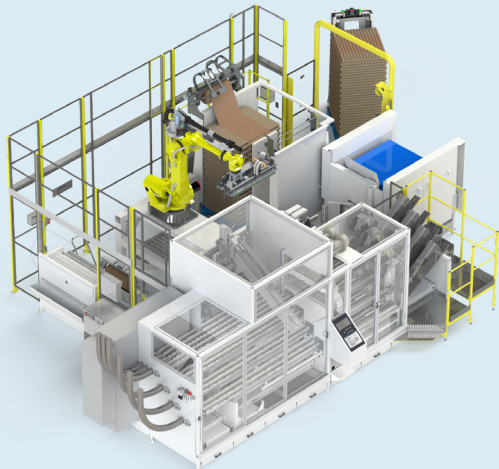

## End Conveying for Liners 3500 SPM

- End Conveying for next generation Liners 3500 SPM
- Increase performance for all generations Liners
- Easy Retrofit

## Packaging Center – 6 Lanes

- 6 in-feed lane's combined with 4 packaging modules
- Same footprint as a standard 4-lane Packaging Center
- Proven NPB Distributor technology
- No additional complexity!
